1 - District Information		Score: 0 / 62 (0%)			
0%					
Standards	Performance Indicators	Measurements	Response	Points	
1 - Leadership	1 - District Name	-	Narrative Required:	0	
	2 - Superintendent	- Superintendent Name	Mr Superintendent Narrative Required:	0	
	3 - School Board Chair	- School Board Chair Name		Narrative Required:	0
		- School Board Chair Email Address		Narrative Required:	0
	2 - Infrastructure	01 - HEALTH EDUCATION: Name, Email, and Title of the person at the district who is responsible for Health Education and the percentage of time allocated to the activity.	- Name and Email Address of the person at the district who is responsible for Health Education	Name and Email Address Narrative Required:	0
- Title of the person at the district who is responsible for Health Education			Title Narrative Required:	0	
- Percentage of that person's time allotted to Health Education			Percent of time on Activity Narrative Required:	0	
02 - PHYSICAL EDUCATION: Name, Email, and Title of the person at the district who is responsible for Physical Education and the percentage of time allocated to the activity.		- Name and Email Address of the person at the district who is responsible for Physical Education	Name and Email Address Narrative Required:	0	
		- Title of the person at the district who is responsible for Physical Education	Title Narrative Required:	0	
		- Percentage of that person's time allotted to Physical Education	Percent of Time on Activity Narrative Required:	0	
03 - HEALTH SERVICES: Name, Email, and Title of the person at the district who is responsible for Health Services and the percentage of time allocated to the activity.		- Name and email of the person at the district who is responsible for Health Services	Name and Email Address Narrative Required:	0	
		- Title of the person at the district who is responsible for Health Services	Title Narrative Required:	0	
		- Percentage of that person's time allotted to Health Services	Percent of Time on Activity Narrative Required:	0	
04 - NUTRITION SERVICES AND EDUCATION: Name, Email, and Title of the person at the district who is responsible for Nutrition Services and Education and the percentage of time allocated to the activity.		- Name and Email Address of the person at the district who is responsible for Nutrition Services and Education	Name and Email Address Narrative Required:	0	
		- Title of the person at the district who is responsible for Nutrition Services and Education	Title Narrative Required:	0	
		- Percentage of that person's time allotted to Nutrition Services and Education	Percent of Time on Activity Narrative Required:	0	
05 - COUNSELING/PSYCHOLOGICAL/SOCIAL SERVICES: Name, Email, and Title of the person at the district who is responsible for Counseling/Psychological/Social Services and the percentage of time allocated to the activity.		- Name and Email Address of the person at the district who is responsible for Counseling/Psychological/Social Services	Name and Email Address Narrative Required:	0	
		- Title of the person at the district who is responsible for Counseling/Psychological/Social Services	Title Narrative Required:	0	
		- Percentage of that person's time allotted to Counseling/Psychological/Social Services	Percent of Time on Activity Narrative Required:	0	
06 - HEALTHY SCHOOL ENVIRONMENT/ SOCIAL AND EMOTIONAL ENVIRONMENT: Name, Email, and Title of the person at the district who is responsible for Healthy School Environments and the percentage of time allocated to the activity.		- Name and Email Address of the person at the district who is responsible for Healthy School Environment	Name and Email Address Narrative Required:	0	
		- Title of the person at the district who is responsible for Healthy School Environment	Title Narrative Required:	0	
		- Percentage of that person's time allotted to Healthy School Environment	Percent of Time on Activity Narrative Required:	0	

07 - HEALTHY SCHOOL ENVIRONMENT/ PHYSICAL ENVIRONMENT: Name, Email, and Title of the person at the district who is responsible for Healthy School Environments and the percentage of time allocated to the activity.	- Name and Email Address of the person at the district who is responsible for Healthy School Environments	Name and Email Address			0
		Narrative Required:			
	- Title of the person at the district who is responsible for Healthy School Environments	Title			0
		Narrative Required:			
08 - EMPLOYEE WELLNESS: Name, Email, and Title of the person at the district who is responsible for Health Promotion for Staff and the percentage of time allocated to the activity.	- Name and Email Address of the person at the district who is responsible for Employee Wellness	Name and Email Address			0
		Narrative Required:			
	- Title of the person at the district who is responsible for Employee Wellness	Title			0
		Narrative Required:			
09 - FAMILY INVOLVEMENT: Name, Email, and Title of the person at the district who is responsible for Family Involvement and the percentage of time allocated to the activity.	- Name and Email Address of the person at the district who is responsible for Family Involvement	Name and Email Address			0
		Narrative Required:			
	- Title of the person at the district who is responsible for Family Involvement	Title			0
		Narrative Required:			
10 - COMMUNITY INVOLVEMENT: Name/Title of the person at the district who is responsible for Community Involvement and the percentage of time allocated to the activity.	1 - Name and email address of the person at the district who is responsible for Community Involvement	Name and email address			0
		Narrative Required:			
	2 - Title of the person at the district who is responsible for Community Involvement	Title			0
		Narrative Required:			
11 - The percentage of schools within the district that implement the Coordinated School Health (CSH)/Whole School, Whole Community, Whole Child (WSCC) approach (i.e., Healthy School Teams with members addressing all components of the CSH/WSCC model that meet regularly, conduct needs assessments, prioritize action plan, implement and evaluate).	1 - Elementary	None			0
		1-33% of elementary schools (Indicate the number of schools in the narrative field below.)			1
2 - Middle	34-66% of elementary schools (Indicate the number of schools in the narrative field below.)				2
3 - High	67-100% of elementary schools (Indicate the number of schools in the narrative field below.)				3
12 - There is someone at the district level who coordinates the school-based healthy school teams/wellness teams.	-	No			0
		Yes			1
13 - There is someone at every school who coordinates the school-based healthy school teams/wellness teams.	-	No			0
		Yes			1
14 - The healthy school/wellness coordinators in each site receive a stipend and/or activity funds.	-	No			0
		Yes - Please indicate the amount of the stipend.			1
15 - The District Wellness Policy includes all components of the CSH/WSCC model.	-	No			0
		Yes - Please provide link to policy.			1
16 - A wellness team member at each school serves on the School Advisory Committee (SAC).	-	No			0
		Yes			1
17 - The School Health Advisory Committee (SHAC) membership represents the school district, the county health department and the community, including families.	1 - The School district is represented on the SHAC.	Indicate the number of school district members on the SHAC.			0

	2 - The County Health Department is represented on the SHAC.	Indicate the number of County Health Department members on the SHAC.			0
		Narrative Required:			
	3 - The Community is represented on the SHAC.	Indicate the number of community members on the SHAC.			0
		Narrative Required:			
	4 - Percentage of School District members represented on the SHAC.	Indicate the percentage of School District members represented on the SHAC.			0
		Narrative Required:			
	5 - Percentage of County Health Department members represented on the SHAC.	Indicate the percentage of County Health Department members represented on the SHAC.			0
		Narrative Required:			
	6 - Percentage of Community members represented on the SHAC.	Indicate the percentage of Community members represented on the SHAC.			0
		Narrative Required:			
	7 - The SHAC Chair is a community member.	No			0
		Yes			1
	18 - Please provide the name and E-mail address for your SHAC Chair.				0
		Narrative Required:			
3 - Communications	1 - The School Board is formally presented information about the physical, emotional, and social health of the district's students and staff.	-	Not presented		0
			Once per year		1
			Twice per year		2
			Monthly		3
	2 - Student and staff physical, emotional, and social health is addressed with superintendent-level staff.	-	Not addressed		0
			Once per year		1
			Twice per year		2
			Monthly		3
	3 - School Health Advisory Committee (SHAC) meetings are regularly conducted by the district and local Department of Health.	-	Once per year		1
			Twice per year		2
			Quarterly		3
			Monthly		4
	4 - The district SHAC advises the School Board about health-related initiatives or issues.	-	Does not advise		0
			Once per year		1
			Twice per year		2
			Quarterly		3
			Monthly		4
	5 - The district SHAC advises the Superintendent about health-related initiatives or issues.	-	Does not advise		0
			Once per year		1
			Twice per year		2
			Quarterly		3
			Monthly		4
	6 - The district SHAC has all components of CSH/WSCC model regularly represented at SHAC meetings.	01 - Physical education and physical activity	No		0
			Yes		1
		02 - Nutrition environment and services	No		0
			Yes		1
		03 - Health education	No		0
			Yes		1
		04 - Social and emotional school climate	No		0
			Yes		1
		05 - Physical environment	No		0
			Yes		1
		06 - Health services	No		0
			Yes		1
		07 - Counseling, psychological and social services	No		0
			Yes		1
		08 - Employee wellness	No		0
			Yes		1
		09 - Community involvement	No		0
			Yes		1
		10 - Family engagement	No		0
			Yes		1
	7 - The district's website includes information and resources for student and staff physical, emotional and social health.	-	No		0
			Yes - Please provide link to website.		1
			Narrative Required:		
	8 - Please provide the name and E-mail address for your district Communications Chair.	-			0
			Narrative Required:		
4 - Budget	1 - Types of district commitments provided for student and staff physical, emotional and social health. Choose all that apply.	1 - Grants	No		0
			Yes		1
		2 - Substitutes	No		0
			Yes		1
		3 - Consultants	No		0

			Yes		1

			Yes		1
		5 - Training/Professional Development	No		0
			Yes		1
		6 - Others	No		0
			Yes (Explain in the narrative field below.)		1
			Narrative Required:		
5 - Evaluation	1 - During the past two years, a district level needs-assessment was conducted related to student and staff physical, emotional and social health.	- Examples include, but are not limited to The Florida Healthy District Self-Assessment and School Climate Survey.	No		0
			Yes		1
			Narrative Required:		
	2 - The District wellness policy has an evaluation component to measure improvements in student and staff wellness.	-	No		0
			Yes		1
	3 - During the past two years, schools in the district conducted or managed a needs-assessment related to physical activity and physical education.	- Schools in the district administered, conducted or managed a needs-assessment related physical activity and physical education using the Alliance for a Healthier Generation's Healthy School Builder, the School Health Index, WellSTAT or similar tools.	None		0
			1-10% of schools		1
			11-50% of schools		2
			51-100% of schools		3
	4 - During the past two years, schools in the district conducted or managed a needs-assessment related to healthy school nutrition.	- Schools in the district administered, conducted or managed a needs-assessment related to healthy school nutrition using the Alliance for a Healthier Generation's Healthy School Builder, the School Health Index or similar tools.	None		0
		1-10%		1	
		11-50%		2	
		51-100%		3	
5 - Please provide a success story resulting from a district collaboration that involved at least two of the component areas. Required for Gold level.	-	Our district does not have a success story.			0
		Yes (Please provide a brief success story that is suitable for publication in an email to Floridaphs@gmail.com).			1
6 - Validation	1 - District leadership was involved in and has approved the content of this assessment.	-	No - A response of no will disqualify the application.		0
			Yes		0
	2 - Component area leads provided the information in their respective section(s).	-	No - A response of no will disqualify the application for award		0
			Section leads were consulted regarding responses.		1
			Section leads provided written responses to the questions or entered them into the tool.		2
3 - The School Health Advisory and/or Wellness Committee participated in completing this assessment.	-	No		0	
		Yes		1	
4 - I attest that the information provided in this assessment is true and accurate to the best of my knowledge and verifiable upon request.	- Name, Title and Email (Required)				0
		Narrative Required:			

2 - Health Education		Score: 0 / 30 (0%)		
0%				
Standards	Performance Indicators	Measurements	Response	Points
1 - The Health Education curriculum is consistent with state standards located at http://www.cpalms.org/ .	1 - The district's K-12 health education instructional strategies are updated periodically to meet Florida Standards for Health Education.	- K-12 health education instructional strategies are developed/selected based on Florida Standards for Health Education.	No	0
			Yes	1
	2 - The district facilitates schools' compliance with the district's curriculum, guidelines, and frameworks for health education.	- Functional health education knowledge and skills are assessed through various strategies.	None	0
			Teacher Developed Examination	1
			Performance tasks and/or portfolios	2
			District developed end of course exam	3
	3 - Curriculum at each grade level is consistent with state statute requiring instruction in all components of health education (Section 1003.42(2)(n), F.S.).	1 - Grades K-5	No	0
			Yes	1
		2 - Grades 6- 8	No	0
			Yes	1
		3 - Grades 9-12	No	0
			Yes	1
	4 - The district has developed a health education curricula and/or implements a scope and sequence for health education courses.	1 - Grades K-5	No	0
Yes (Please describe)			1	
Narrative Required:				
2 - Grades 6-8		No	0	
		Yes (Please describe)	1	
		Narrative Required:		
3 - Grades 9-12		No	0	
		Yes (Please describe)	1	
		Narrative Required:		
2 - Elementary Health Education is taught across the curricula by personnel who are trained to teach the health curriculum	1 - The district trains personnel with health education certification and/or other personnel that provide health education integration within the core curriculum or health education course.	- Type of training:	None	0
			Written guidelines and curriculum disseminated annually	1
			Annual online training or other	2

			remote training		
			Annual face-to-face training		3
3 - Middle school Health Education is taught by personnel who are trained to teach the health curriculum.	1 - The district trains personnel with health education certification and/or other personnel that provide health education integration within the core curriculum or health education course.	- Type of training:	None		0
			Written guidelines and curriculum disseminated annually		1
			Annual online training or other remote training		2
			Annual face-to-face training		3
4 - High school Health Education is taught by personnel who are trained to teach health education.	1 - The district trains personnel with health education certification on how to integrate health education within the core curriculum or health education course.	- Type of training:	None		0
			Written guidelines and curriculum disseminated annually		1
			Annual online training or other remote training		2
			Annual face-to-face training		3
5 - The district provides a link to the FDOE Comprehensive Health Education Elementary and Secondary Toolkits on the district website.	-	-	No		0
			Elementary only - Please provide weblink.		1
			Narrative Required:		
			Secondary only - Please provide weblink.		1
			Narrative Required:		
			Both Elementary and Secondary - Please provide weblinks.		2
			Narrative Required:		
6 - The district provides professional development for personnel responsible for overseeing the district's Health Education curricula.	1 - The district provides personnel with staff development activities related to health education.	- Type of staff development:	No staff development offered		0
			At least one full day face-to-face training annually for all health education district personnel		1
			Health Education district personnel are offered opportunity to attend one external professional development event annually (Examples include SHAPE Florida, Healthy School Summer Academy, CODA, or Florida School Health Association).		2
			Health Education instructors are offered opportunities to attend one external professional development event annually WITH SUBSTITUTE AND TRAVEL EXPENSES PAID BY THE DISTRICT (Examples include SHAPE Florida, Healthy School Summer Academy, CODA, or Florida School Health Association)		3
7 - District provides school administrators with means to assess Health Education at each school site.	1 - The district has policies and procedures in place to assess student health education knowledge and skills.	- The district requires written assessment of student health education knowledge and skills	None		0
			Policy is in place		1
			Procedure for follow up clearly outlined		2
			Quality Improvement process to ensure compliance		3
8 - The district requires stand-alone Health Education courses taught by teachers certified to teach Health Education.	1 - The district has policies and procedures requiring certified Health Education teachers to provide health education courses.	- Grade Level (elementary level, middle school level, high school level)	N/A		0
			Health Education Courses required at 1 level		1
			Health Education Courses required at 2 levels		2
			Health Education courses required at all levels		3

3 - Physical Education			Score: 0 / 31 (0%)	
0%				
Standards	Performance Indicators	Measurements	Response	Points
1 - The physical education curriculum is consistent with state standards. - Elementary: Section 1003.455, F.S., requires 150 minutes of physical education each week for students in grades K-5. A minimum of 30 consecutive minutes is required on any day that physical education instruction is provided. - Middle: Section 1003.455, F.S., requires one semester of physical education each year for students enrolled in grades 6-8. - High: Section 1003.4282, F.S., includes a one credit physical education requirement with the integration of health.	1 - The district's K-12 physical education curriculum is updated periodically to meet Florida Standards for Physical Education.	- K-12 physical education curriculum is developed/selected based on Florida Standards for Physical Education.	No	0
			Yes	1
	2 - The district facilitates schools' compliance with the district's curriculum, guidelines, and frameworks for physical education.	1 - Physical education knowledge is assessed through various strategies.	None	0
			Teacher developed assessments	1
			Performance tasks and/or portfolios	2
			District developed end of course assessments	3
			None	0
			Teacher developed assessments	1
	2 - Health-related components of physical fitness are assessed through various strategies.	2 - Health-related components of physical fitness are assessed through various strategies.	Performance tasks and/or portfolios	2
			Formal physical fitness assessment using tools such as the Presidential Youth Fitness Program	3
			None	0
			Teacher developed assessments	1
3 - Motor skills are assessed through various strategies.	3 - Motor skills are assessed through various strategies.	Performance tasks and/or portfolios	2	
		District developed end of course assessments	3	
		None	0	
		Teacher developed assessments	1	

		4 - Compliance with kindergarten through 8th grade physical education requirement is audited annually through student membership surveys and enrollment data.	None District policy is in place District level written procedures in place Schools provide written documentation of master schedules to the District		0 1 2 3
2 - The district follows national guidelines and recommendations (by SHAPE America) for the student/teacher ratio in physical education. *SHAPE America recommendations for Physical Education: Elementary - 1:25 Middle - 1:30 High - 1:35	1 - There are adequate numbers of physical education teachers in elementary schools to meet the recommendations.	- Ratio of elementary physical education teachers per student	More than 1:40		0
			1:33 - 1:39		1
			1:26 - 1:32		2
			1:25 or less		3
	2 - There are adequate numbers of physical education teachers in middle schools to meet the recommendations.	- Ratio of middle school physical education teachers per student	More than 1:45		0
			1:38 - 1:44		1
			1:31 - 1:37		2
			1:30 or less		3
	3 - There are adequate numbers of physical education teachers in high schools to meet the recommendations.	- Ratio of high school physical education teachers per student	More than 1:50		0
			1:43 - 1:49		1
			1:36 - 1:42		2
			1:35 or less		3
3 - Physical education is taught by teachers who are certified to teach physical education.	1 - District policy requires certified K-12 physical education teachers in all schools.	-	High School Only		1
			High School/Middle School		2
			K-12		3
4 - The district provides professional development for personnel responsible for implementing the district physical education curricula.	1 - The district provides physical education teachers with staff development activities related to physical education.	-	None		0
			Written guidelines and curriculum disseminated annually		1
			Annual online training or other remote training		2
			Annual face-to-face training		3
5 - Physical activity is integrated in the overall school curriculum.	1 - The district provides activities, strategies, and tools for the integration of physical activity into the overall school curriculum using approaches such as the Comprehensive School Physical Activity Program (CSPAP).	-	None		0
			District policy is in place		1
			Activities, strategies and tools shared annually		2
			District is implementing Comprehensive School Physical Activity Program (CSPAP) approach.		3

4 - Health Services		Score: 0 / 53 (0%)		
Standards	Performance Indicators	Measurements	Response	Points
1 - Purposes and scope of the school health program outlined in Sections 381.0056 and 381.0057, F.S. are defined by written policies and other documentation.	1 - A district-wide procedure/policy manual is available in all schools that describes specific written school health procedures for crucial areas. Manuals incorporate approved state guidelines (e.g., diabetes, asthma, epi-pens, and school immunization requirements).	- Policies, procedures and protocols are reflective of evidence-based, clinically competent quality care.	None	0
			Policy and procedure manual in place	1
			Reviewed and updated in the past 2-4 years and reflective of evidence-based, clinically competent quality care.	2
			Reviewed and updated annually and reflective of evidence-based, clinically competent quality care.	3
	2 - Policies and procedures are in place for mandatory reports of child abuse, abandonment, or neglect; mandatory reports of death; per Section 39.201, F.S.	-	None	0
			Policy and procedures in place	1
			Policy and procedure disseminated to health services personnel annually	2
			Annual training includes mandatory reporting requirements.	3
	3 - Clinical competencies and guidelines for all classifications and duties of school health personnel practice areas are clearly defined, applied and available to appropriate individuals in accordance with the Florida Nurse Practice Act, Sections 464.001 - 464.027, F.S.	- Job descriptions, classifications, duties, monitoring tools and guidelines for all school health personnel are clearly defined, applied in accordance with the Florida Nurse Practice Act, Sections 464.001 - 464.027, F.S.	None	0
			Job descriptions, monitoring tools and guidelines are provided to staff annually.	1
			Job descriptions, monitoring tools and guidelines are provided to staff annually. Skills and clinical competencies of school health personnel are assessed at least ANNUALLY.	2
			Job descriptions, monitoring tools and guidelines are provided to staff annually. Skills and clinical competencies of school health are assessed PERIODICALLY throughout the school year.	3
	4 - Community health resources and partnerships are in place to support the needs of students, community and family, including direct care, collaborative consultation and chronic disease case management coordinated by the professional school nurse. Section 381.0056 (5)(a)(14), F.S.	- Community referral processes to include vision, hearing, medical (chronic disease case management), BMI, dental, social services, mental health counseling and parenting resources.	Vision, hearing, and medical (chronic disease case management) only	1
			Vision, hearing, medical (chronic disease case management), dental and mental health	2
			Vision, hearing, medical (chronic disease case management), BMI, access to dental, mental health, social services and parenting resources	3
			Vision, hearing, medical (chronic	4

			disease case management), BMI, access to ONSITE dental, mental health outreach services, social services and parenting resources			
	5 - Adequate physical facilities are available for health services in each school in accordance with DOE State Requirements for Educational Facilities. Section 381.0056(6)(b), F.S.	-	Adequate space solely dedicated to delivery of student health services is available on all school campuses.			1
			Includes above in addition to space for confidential consultation, patient care, record storage.			2
			Adequate space for patient care, storage and consultation and computer with internet access.			3
2 - Students have access to a full-time professional school nurse all day, every day per the recommendation of the National Association of School Nurses position statement Role of the 21st Century School Nurse (2016)	1 - Students have access to a registered professional school nurse to provide coordination of care for students.	-	None			0
			Itinerant RN coordinating health services to multiple schools (2-5 schools) WITHOUT dedicated health staff (Unlicensed Assistive Personnel- UAP) in school clinics.			1
			Itinerant RN coordinating health services to multiple schools (2-5 schools) WITH dedicated health staff (UAP) in school clinics.			2
			Itinerant RN coordinating health services to NO MORE THAN 3 schools WITH dedicated health staff (UAP) in all school clinics.			3
			Full time RN in every school daily for clinic services.			4
	2 - Adequate numbers of staff are trained and currently certified to provide first aid and CPR at all school sites in accordance with American Heart Association recommendations for schools.	- Cardiac Emergency Response Teams (CERT) are in place to respond to health emergencies and include school nurses, administrators and other CPR/AED certified staff. Average number of staff per school trained and currently certified in First Aid and CPR	CERT not established.			0
			CERT established in all secondary school sites with at least 3 trained personnel.			1
			CERT established in all secondary school sites with 4 or more trained personnel.			2
			CERT established in all K-12 school sites with 4 or more trained personnel.			3
	3 - The district and/or county health department have procedures and policy in place to ensure that health staff is qualified and adequately trained annually at all school sites.	- Medication administration policy, procedure and training guidelines in place	No documented training for designated staff			0
			Medication administration policy and documentation of annual medication administration training by School Nurse (RN) including child-specific needs.			1
			Medication administration policy and documentation of annual medication administration training by School Nurse (RN) including child-specific needs and periodic monitoring			2
			Medication administration policy and documentation of annual medication administration training by School Nurse (RN) including child-specific needs with periodic monitoring and review of skills			3
3 - The district and/or county health department conduct training and evaluation to ensure that health staff is qualified and adequately trained.	1 - In-service training is available that supports the safe delivery of health services and a reasonable amount of time is allowed for health personnel in all schools to attend.	-	None			0
			At least one full day face-to-face training annually for all health services staff			1
			Professional staff offered opportunities to attend one external professional development event annually			2
			Professional and licensed staff offered opportunities to attend one external professional development event annually			3
4 - In-service training provided to teachers and staff to help them identify, refer, and manage students with special health needs.	1 - Health Services staff provide developmental activities related to health services for non-instructional personnel.	- Number of times per school year district personnel (i.e., cafeteria staff, bus drivers, and administrators) provided training on health services	None			0
			Once annually			1
			2-3 times			2
			More than 3 times			3
	2 - There is an established process by which school personnel can refer students to the school nurse.	-	None			0
			Written procedures			1
			Written procedures and referral process			2
			Written procedures and multipart referral process for nurse response and follow up			3
5 - The district and county health department have a process for monitoring compliance with Florida Statutes and district policies to include access to preventive services, referrals, emergency care and management of acute and chronic health conditions for all students, including assistance with medication and dental hygiene.	1 - The district and county health department have jointly created procedures to standardize the scope and quality of care coordination available for students and families.	- A system in place to standardize data collection related to health screening and other student health care needs.	Includes required screening information only			1
			Includes procedures to ensure accurate data collection for all student health care needs			2
			Includes above, plus electronic method of data collection and reporting of results to meet student healthcare needs			3
	2 - Policies and procedures are in place to monitor referral and follow up for all students failing health screenings.	-	Policies in place			1
			Procedures for follow up clearly outlined			2

			Quality improvement process to ensure follow-up		3
3 - Procedures are in place to monitor adherence to compulsory school entrance requirements for immunizations and physical exams pursuant with Section 1003.22, F.S., and 64D-3.011 (3), Florida Administrative Code.	- Compulsory School Immunizations Annual Reports and surveys for the previous school year documents compliance at or above the state level.	No			0
		Yes			1
4 - The district and/or county health department offer preventive dental health services.	- Preventive dental health services are in place.	None			0
		K-5 only			1
		K-8 only			2
		K-12			3
5 - Procedures are in place to promote immunization awareness	- Distribute flu awareness educational materials to parents, students, and staff	None			0
		1 annual communication			1
		More than 1 annual communication			2
	- Participate in mass school vaccination clinics	None			0
		1 annual clinic			1
		More than 1 annual clinic			2
6 - Processes are in place to ensure that the needs of the whole child are met, including chronic disease case management with input from student parent, community health care provider, and responsible school staff, and that care of disabled or chronically ill students is coordinated among medical providers, parents, staff and faculty.	1 - Policy and procedures and protocols are in place to ensure parent, student, and provider input and involvement in professional school nurse's (RN) development and/or revision of the Individual Healthcare Plan (IHP) and Emergency Care Plan (ECP).	None			0
		Policies in place			1
		Procedures and protocol for follow up clearly outlined			2
		Quality improvement process in place to ensure compliance related to care coordination			3
	2 - The school nurse is a collaborative member of the school team to develop the health component of the Individualized Educational Program (IEP) including student health management and transition planning.	-	No		
Yes					1
